

TABLE OF CONTENTS

1.0	Building Science	Page
		(see 1.0 on the blue tab)
	About this Chapter	1
	Range of Moisture Issues	1
	Solid Water	2
	Liquid Water	3
	Rainwater Penetration	4
	Conditions for Water Penetration	4
	Neutralizing the Driving Forces	5
	Rain Penetration Control Strategies - Wall Systems	6
	Water Vapour	9
	Vapour Barriers and Air Barriers	9
	Condensation	10
	Air Barriers	11
	Occupancy Moisture	12
	Construction Moisture	13
	Effects of Wood Shrinkage	13
2.0	Building Envelope Systems	Page
		(see 2.0 on the blue tab)
	About this Chapter	1
	Below Grade Considerations	1
	Foundations	1
	Basement and Crawlspace Floors-on-ground	2
	Insulating Basement Walls	3
	Above Grade Considerations	4
	Sheathing Installation	4
	Sheathing Membrane	5
	Minimum Wall Requirements - High Moisture Index Regions	5
	Minimum Wall Requirements - Low Moisture Index Regions	6
	Constructing the Capillary Break	7
	Exterior Cladding Installation	8
	Air Barrier Systems	10
	Window Openings	12
	Low Moisture Index Minimum Window Installation	13
	High Moisture Index Minimum Window Installation	14
3.0	Options for Building Envelope Details	Detail Location
		(see 3.0 on the blue tab)
	About this Chapter	
	Foundation Details	
	Exterior Insulation - Polystyrene Foam	3.1.01 (4 pages)
	Exterior Insulation - Semi-Rigid Insulation	3.1.02 (4 pages)
	Exterior Insulation - Medium Density Spray Foam	3.1.03 (4 pages)
	Interior Insulation - Medium Density Spray Foam	3.1.04 (4 pages)
	Interior Insulation - Batt	3.1.05 (4 pages)

TABLE OF CONTENTS

Wall and Ceiling Details		
<i>Sealed Polyethylene Air Barrier - Detail Map</i>		3.2 (1 page)
Partition Wall at Wall and Ceiling		3.2.01 (5 pages)
Recessed Light		3.2.02 (2 pages)
Dryer and Hood Vent		3.2.03 (4 pages)
Exterior Door		3.2.04 (5 pages)
Bathroom Ceiling Fan		3.2.05 (2 pages)
Plumbing Penetration at Ceiling		3.2.06 (3 pages)
Ceiling Mechanical		3.2.07 (2 pages)
Window		3.2.08 (6 pages)
Interior Electrical Box		3.2.09 (3 pages)
Rim Joist		3.2.10 (3 pages)
Plumbing at Exterior Wall		3.2.11 (4 pages)
Foundation Wall Transition		3.2.12 (3 pages)
 <i>Airtight Drywall Air Barrier - Detail Map</i>		3.3 (1 page)
Partition Wall at Wall and Ceiling		3.3.01 (4 pages)
Recessed Light		3.3.02 (2 pages)
Dryer and Hood Vent		3.3.03 (4 pages)
Exterior Door		3.3.04 (5 pages)
Bathroom Ceiling Fan		3.3.05 (2 pages)
Plumbing Penetration at Ceiling		3.3.06 (2 pages)
Ceiling Mechanical		3.3.07 (3 pages)
Window		3.3.08 (6 pages)
Interior Electrical Box		3.3.09 (2 pages)
Rim Joist		3.3.10 (3 pages)
Plumbing at Exterior Wall		3.3.11 (4 pages)
Foundation Wall Transition		3.3.12 (4 pages)
 <i>Synthetic Sheathing Membrane Air Barrier - Detail Map</i>		3.4 (1 page)
Window		3.4.01 (7 pages)
Dryer and Hood Vent		3.4.02 (5 pages)
Exterior Door		3.4.03 (5 pages)
Wall Ceiling Connection to Sealed Poly		3.4.04(a) (3 pages)
Wall Ceiling Connection to ADA		3.4.04(b) (3 pages)
Foundation Wall Transition		3.4.05 (4 pages)
 <i>Common Exterior Wall Details - Detail Map</i>		3.5 (1 page)
Saddle Transition		3.5.01 (4 pages)
Exterior Stairs		3.5.02 (3 pages)
Balcony/Wall Transition		3.5.03 (2 pages)
Exterior Pipe Penetration		3.5.04 (4 pages)
Exterior Electrical Box		3.5.05 (2 pages)
Flashing - Saddle		3.5.06 (3 pages)
Flashing - Hammer Lock Connection		3.5.07 (2 pages)
Flashing - 'S' Lock Seam		3.5.08 (1 page)
Flashing - Standing Seam		3.5.09 (1 page)
Flashing - End Dam		3.5.10 (2 pages)

4.0 **Glossary of Terms** (see 4.0 on the blue tab)

5.0 **Additional Information** (see 5.0 on the blue tab)
